WEB
DEVELOPER

✎ Profile

After having followed two training courses over two years as a developer integrator in the realization of web applications and designer of applications, I now wish to join a team in which I can be a force of execution and achieve the set objectives.

Having worked with passion for 15 years as a chef and self-taught in computer science in my spare time, it is thanks to the opportunity for a professional retraining that I was able to train myself as a web developer. Due to my past experience, I was able to acquire transversal skills that can be perfectly transposed to this sector of activity, such as organization, rigor, time management, stress and a team.

💼 Formation

Application designer - License level (Level II (FR) 6 (Eu)) @ Greta
56100 Vannes, France
Jan. 2020 – Nov. 2020

    Develop the front-end and back-end part of a UI
    Design and set up a database
    Build an app organized in layers (4-tier)
    Prepare and execute the production deployment of an app
    Develop an API that interacts with a database server
    Use a secure protocol to interact with the database

Developer integrator in production web applications - BTS / DUT level (Level III (FR) 5 (Eu) @ Greta
56100 Vannes, France
Oct. 2018 – Jul. 2019
